Title: Nosferatu: The Damned

Author: Nathan ap Wael  
-----

The Nosferatu are indeed a hideous clan- but still a loyal and trustworthy clan. Often referred to as the Damned because of their twisted and deformed faces caused by their Embrace. After a child's embrace, it follows with weeks of pain caused by the transformation. Some say the transformation is caused by the tainted blood of the clan. The transformation is as painful physically as it is mentally and few come out of this metamorphosis completely sane. Most of the Kindred despise the Nosferatu because of their hideous and twisted physique and appearance- however those who do associate with them will find that they are very loyal to those they are friends with. Many debate on this, but I would have to say that the reason behind this is because the clan has developed such a close bond to other clan members and it has carried on to other aspects. The reason the clan has such close bonds is because of the other clans not wanting them around or to be in their company- so they are always in the company of their own. Their skill for stealth is amazing and unmatched. If you wish to know the world- simply

find a Nosferatu, for  
they will be able to tell  
of everything...

As written by Nathan ap  
Waels of Clan Lasombra.
